The route follows what was originally a railroad that has been converted to a limestone/slag surface trail. This is an ideal ride for fat-tire bike or road bikes equipped with non-skinny, treaded tires. Riders will need to provide a light (if traveling the entire distance), helmet and repair kit/pump. Ride is scheduled every Thursday through September. Ride will not take place if rain or storm conditions are present. Ride leader would appreciate (but not require) a one week notice if you plan to participate. For more information, see
